

Diaspora Funeral Cash Plan is essentially a whole of life cover which means that you are covered for life with a guaranteed immediate cash payout on death. Payout is either cash over the counter in Zimbabwe or into any bank worldwide by Telegraphic Transfer within 24 hours of proof of death.

Whilst the cover is for life you only pay premiums for 20 years after which you continue to be covered indefinitely for FREE.

Free cover after 20 years is very important in that for most plan-holders by the time they reach retirement they won't have to pay anymore premiums which means that in the afternoons of your life you won't have to worry about having to pay anymore premiums. This guarantees you a dignified send-off as opposed to the possibility of getting your plan cancelled because you are not able to afford it anymore.

In the event that the plan-holder dies before qualifying for free cover, the remaining covered family qualifies for free cover on a concessionary shorter period of 17 years.

Diaspora Funeral Cash Plan is an innovative funeral insurance which pays out cash immediately on death and this is a significant departure from traditional funeral insurance which provides goods and services on death. By paying out cash on death it means that wherever you may be in the world or should you relocate to any country (Zimbabwe included) you remain covered on the same plan. The Diaspora Funeral Cash Plan is therefore a protection without borders which means wherever you are in the world you are fully covered. The cover is not territorial it's global!

The Diaspora Funeral Cash Plan offers a whole host of other innovative benefits: <http://www.diasporafuneralcashplan.com/news/95-dfcp-news>
